Bernard Aschelrodt, of 33 Attorney street, was painting the woodwork in a small rear room of the second floor. Other painters and plumbers were passing in and out at their work in the krooms and halls on that floor.

A man known only as Tim Mack, employed by the watchman as a sweeperout, was hanging around among the men. He is said to have been drinking. He made Aschelrodt the target of his the witness, but he was not allowed to read it.

Then Mr. Grant wanted to cross-examine the witness, but to this Mr. Veliman objected on the ground that only one counsel for the defendant could cross-examine, and that it would be a waste of time. He finally consented to allow one or two questions.

Big Capt. Doberty manifested a very active interest in every question asked the witness and was continually consuiting with his lawyers and giving them suggestions.

Warm words followed, and then came sthe fire.

It was Ascheirodt who leaped from the window. He was frighfully burned about the body and head and may die.

He was able to make a partial statement. He said that he was standing on a low scaffold called a "horse" when Mack came in and began to annoy him. They quarrelled, and Mack picked up a bucket of paint and threw it at him. The plumbers say that Ascheirodt had said that the paint caught fire from a plumbers' furnace under his scaffold, but several of the painters, who had followed Ascheirodt to the New York Hospital, declare that he said that Mack had throwf the paint upon him, and then struck a match and deliberately set him on fire.

After further questioning, the witness walt then proceeded to get out of the witness what happened when she went to see Mr. Wellman at his office in answer to the subpoen.

"Oh no they wouldst." retorted Lawyer Grant in a taunting tone.

"In justice to myself I demand that these references to my private life be siricken from the record, continued Mr. Wellman.

Despite Lawyer Grant's objection, this was ordered by Commissioner Martin, and the incident was closed. It was the only serious trouble that had occurred during the morning.

Commissioner Murray questioned the witness at considerable length, and made her repeat a great part of her testimony. When he had finished Mr. Wellman asked that Supt. Platform and President.

"It is said by some in justification of or excuse for their present action that the President's letter of acceptance, in 1892, modified the extreme demands of our platform. It is true that some portions of his letter may tend to bear that construction. It was not that bold, ringing and explicit declaration in favor of the platform which his party had a right to expect, but was regarded by many as it mid, cautious and conservative; but whether this criticism is or is not well founded the fact remains that he had no power or authority to change or alter one line or sentence or provision of the National platform which had been deliberately adopted in National Convention duly assembled. No President can be above his party; no President can dictate to als party; no President can change his party platform. "But no matter what idea it may be claimed was intended to be conveyed in his letter of acceptance, in mitigation or modification of the platform, there can be no doubt as to the President's position at this time upon this essential principle of free raw materials. Let me read from that remarkable letter of the President which was yesterday submitted to the House of Representatives. ST. LOUIS, July 20.—It has been earned that Joseph D. Ginnochio, a native of St. Louis, was arrested while on a visit near Genoa, Italy, and forced by the Italian authorities to enter the mil-itary service in that country, under the charge that he was a deserter. Rela the young man's birth, in order that it may be forwarded to the United States representative in Italy and his release secured. Failing to immediately find satisfac-tory evidence of citizenship, they will appeal to the Secretary of State at Washington, to secure Ginnochio's lib-

Hungry, Yet Umable to Eat, Schmidt
Lies on a Bed of Torture.

L. Schmidt, an old man, lies in a little rear room of a tenement at 136 Madison street, in a most pitiful plight. He is sick and starving. His body is racked with pain, his feet are swollen and he is almost too feeble to eat. In this condi-

tion he has lain for five days with nothing to eat.

Some of the neighbors applied to the United Hebrew Societies, and a physician called from that institution and left some medicine. He has lain since without any care except what other poor tenants drop in and bestow from time to time. He wants the society to which he appealed to take him to its hospital, as the unfortunate man feels that he will speedily die if left as he is.

His Charge, Patrick McGowan, Dying in a Brooklyn Hospital.

Repeated Paddling, It Is Alleged, Caused Incurable Disease.

Coroner Kene Takes His Ante-Mortem Statement.

Coroner Kene, or Brooklyn, was summoned to the Long Island College Hospital at 1 o'clock this morning to take the ante-mortem statement of Patrick McGowan, twenty-five years old, of 975 ing. The young man is ill with pleuro-pneumonia, brought on, it is alleged, by being brutally paddled by Supt. Brockway, of the Elmira Reformatory.

and his assistants.

McGowan was so weak that it was necessary to administer stimulants to give him the strength to talk. As it was, Coroner Kene did not get his story until nearly two hours had elapsed. McGowan's tale was printed in "The World" on July 5.

Some years ago he was sent to the

Elmira Reformatory for breaking inte a store on Atlantic avenue, Brooklyn, and stealing several hams. He says he was innocent of the charge. On reaching the institution he was set to work the iron foundry.

Oct. 28, 1859, was his birthday. He was summoned to the famous bath-room on that day, where he was surrounded by Brockway and three other men. He was

i could not lie in bed. I did not merit the severe punishment I received. I was punished wrongfully, and Brockway did not even say he had made a mistake or that he was sorry."

In December following he was paddled again; and he was beaten again on March 31, 1893.

McGowan was in the Elmira Reformatory hospital from July 2, 1893, until Sept. 30. He was discharged the following day. Since that time three operations have been performed upon him, at each of which several quarts of water have been removed.

At the hospital this morning it was said that in all probability he would not survive throughout the day.

The general plan of the cruise will be the defense of Long Island, a plan for which is being developed for actual use by Capt. Taylor, of the War College, Monday and Tuesday will be spent in target practice with the heavy guns and secondary batteries. Wednesday, with detachments from the National Guard of this State and Connecticut and representatives of the War College at Newport, there will be extensive signal drills, transmitting messages as in real warfare. There will also be an attack on Fisher's Island, which is to be captured from an imaginary enemy.

The next day the island is to be defended from a sea force. Friday will be carefully watched by the regular officers of each vessel, and will be carefully watched by the regular officers of each vessel, and will be carefully watched by the regular officers of each vessel, and will be reported to the Navy Department at Washington.

The New York Naval Reserve will muster as follows:

Deherty Reided the House.

Mr. Grant stated that the Captain had thereupon raided the place, and that Mrs. Thurow had been arrested and fined. This was to contradict Meyer's testimony.

William Delamater, first deputy clerk of the Police Board, gave the dates of the appointments of Capt. Doherty and Officers Hoch and Meehan, their transfer to the Fifth street station, and their removal from that preclinct.

The next witness was Rosa West, who testified that she had lived in Mrs. Thurow's house, 23 Second avenue, from May, 1822, till February, 1893. The witness would not say at first whether it was a nouse of fill-fame or not, and Lawyer Grant became very much excited when the interpreter from General Sessions tried to persuade her to answer. Afterwards, however, she described the character of the place, and said she had seen Capt. Doherty there several times while she was living there. He sometimes spoke to the girls as he passed the house.

"What did he say?" asked Mr. Osborne, "I don't want to tell." Doherty Raided the House. Why She Testified Before Lexow.

Mr. Martin excluded a good many of Mr. Fromme's questions, but when the lawyer asked the witness again how she happened to go before the Lexow Com-mittee he said:
